Commissioner for Patents

The Examiner concedes the use of the form PTOL-271 mailed 02/27/2004 was in error. However, the information found in paragraph 1 therein is still relevant, i.e. the amendment filed 11/21/2003 includes an information disclosure statement, however, fails to comply with 37 CFR 1.97(d) because it lacks a statement as specified in 37 CFR 1.97(e), (shown below).

That each item of information contained in the information disclosure statement was first cited in any communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of the information disclosure statement.

The Examiner recognizes Applicant attempted this statement at page 2, lines 4-11, but points out Applicant failed to recite that each item of information contained in the information disclosure statement was FIRST cited in any communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of the information disclosure statement. The information therein has accordingly not been considered.
